Investors should consider carefully information contained in the prospectus, including investment objectives, risks, charges and expenses. You can request a prospectus by calling Schwab at 800-435-4000 or by visiting schwab.com. Please read the prospectus carefully before investing.

Some specialized exchange-traded funds can be subject to additional market risks. Investment returns will fluctuate and are subject to market volatility so that an investor's shares, when redeemed or sold, may be worth more or less than their original cost. Unlike mutual funds, shares of ETFs are not individually redeemable directly with the ETF.
